STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. MURKOWSKI (for himself and Mr. STEVENS):

S. 2693. A bill to amend title XIX of the Social Security Act to provide a more equitable Federal medical assistance percentage for Alaska; to the Committee on Finance.

THE ALASKA MEDICAID EQUITY ACT OF 2000

• Mr. MURKOWSKI. Mr. President, for more than 30 years, the State of Alaska was subjected to an economic inequity in the administration of the national Medicaid program.

With a poverty level 25 percent above the national average, and over one-sixth of the state's population Medicaid-eligible, Alaska delivers health care to many needy children, pregnant women, disabled and elderly poor Americans. These people deserve quality medical care, and Alaska delivers.

But three years ago, Congress recognized that the federal government was not paying its fair share of Alaska's Medicaid program. The one-size-fits-all formula that is used to calculate the federal Medicaid match is based upon the per capita income of individual states as it relates to the national per capita income. Simply put, states with higher per capita income pay a higher percentage of Medicaid costs. This formula works well for states that are near national norms for most economic indicators. But it certainly doesn't work in the State of Alaska, where most economic measurements are atypical compared with national averages.

The reason is fairly simple. It just costs more to live and do business in Alaska. Per capita income isn't a fair indicator unless it takes into account the cost of delivering care in that area. Somehow, however, the Medicaid formula forgot this.

In 1997, when Congress recognized this issue, it adopted legislation that reflected the state's higher costs and increased the federal Medicaid match. Instead of receiving a 50-50 match rate, as the formula would dictate, a 59.8-40.2 percent match rate was established.

Unfortunately, this legislation was a short term fix. It only allowed the formula change to remain in effect for
